

# Engineered Biosystems Building Grand Opening Celebration

September 11, 2015

# ENGINEERED BIOSYSTEMS BUILDING

# ENGINEERED BIOSYSTEMS BUILDING

CHILDREN'S HEALTHCARE OF ATLANTA SEMINAR ROOM

 Children's  
Healthcare of Atlanta

The Children's Healthcare of Atlanta Seminar Room, named in recognition of Children's Healthcare of Atlanta's support of the Engstrom Business Building at the Georgia Institute of Technology, supports collaboration for most physicians, faculty, scientists, and engineers, and provides a venue for the presentation of student research to the campus community and beyond. It also recognizes the ongoing work under the Children's Healthcare of Atlanta Pediatric Technology Grants, which represents an important partnership between the two organizations.
