

APRIL 2019 ROUND UP

Ashley Cross, a PhD candidate in Joanna Goldberg's lab, was awarded the Microbiology and Molecular Genetics (MMG) Program Scholar of the Year award. Congrats Ashley!

AWARD

Jay Freeman, MD, is one of three PIs for the CF Foundation's GALAXY Study looking into GI symptoms in CF. Learn more about this study [here](#).

CLINICAL TRIAL

CF-AIR received 8 applications for the the center pilot grant call. These \$50,000 grants are being reviewed now and represent the breadth of research happening the center. Awardees will be announced in June.

GRANTS

Announcing Rachel Linneman, MD as the new Care Center Director for our Comprehensive CF Care Center Program (pediatrics and adults). Dr. Linneman is taking this important leadership role following a national search. We are pleased and fortunate to have found the best candidate in our own team already! Many thanks to Arlene Stecenko for her leadership these past 5 years. Dr. Stecenko has recruited several physician-scientists, including Dr. Linnemann, setting up Dr. Linneman for much success in the coming years.

NEW ROLE
