

2019-2020 Researcher Survival Skills Workshop

Running a Research Lab/Running a Clinical Research Team

Learn tips and tricks for successfully establishing and running your research team. Drs. Boss and Kraft will share insights into hiring, firing, organizing, and motivating team members.

Monday, October 28

1-4 p.m.

SOM 153A

[Register!](#)

Jerry Boss, PhD

Professor and Chair, Department of Microbiology and Immunology

Associate Dean for Basic Research

Colleen Kraft, MS, MSc

Associate Professor, Departments of Pathology and Laboratory Medicine and Medicine

Upcoming Workshops:

Grant Writing Workshop

To win NIH grant funding, the ability to clearly, critically, and effectively communicate your proposed research ideas is essential. In this workshop, you will learn the NIH grant structure and grant review process, be able to use key elements of grantsmanship to help you win funding, and have confidence in your ability to execute your plan. With specific focus on NIH R grants, you will learn to strategically design your grant writing timeline, organize your proposal, meet new NIH grant requirements, and much more
