00:24:29 Jan: data analysis

00:24:30 Jessica Reilly MD FAAP DABOM: Advancing clinical care

00:24:34 Sukjoo Cho: physician-scientist

00:24:35 Elisabetta Foppiani: Expert in...., brilliant scientist

00:24:37 Nabil Saleem: Thoughtful and competent physician scientist specializing in cell therapy

00:24:38 Julie Hawk: How to communicate complex research

00:25:12 Jan: Reacted to "physician-scientist" with ❗

00:25:22 Jan: Reacted to "Thoughtful and competent physician scientist specializing in cell therapy" with 💯

00:27:29 Sukjoo Cho (he/him): Can you repeat the question, sorry

00:27:30 Jan: identifying collaborators for a project in my area

00:28:01 Hunter Jonus: Experimental design and execution

00:28:12 Julie Hawk: facilitating collaboration among different disciplines

00:28:13 Aimee L. Bozeman, Ph.D.: Mentoring undergraduates and graduate students

00:28:15 Sukjoo Cho (he/him): dedication to research, clinical capacity

00:28:19 Hina Raheel: Overcoming barriers and hurdels. Team player

00:28:19 Greg Jordan: Networking

00:28:27 Katie Conover: Hypothesis building, datasets, collaboration

00:28:54 Seema Patel: Immunology assays, hypothesis driven basic science studies

00:33:01 Katie Conover: Pediatric cholestatic liver diseases

00:33:14 Jessica Reilly MD FAAP DABOM: Obesity heterogeneity

00:33:24 Aimee L. Bozeman, Ph.D.: Neurourology

00:33:25 Hina Raheel: intersection of environment and women's health

00:33:33 Sukjoo Cho (he/him): leveraging tumor microenvironment to eradicate cancer

00:33:36 Greg Jordan: The intersection between obesity/metabolic syndrome and imaging in pediatric patients

00:33:43 Jessica Reilly MD FAAP DABOM: Reacted to "The intersection between obesity/metabolic syndrome and imaging in pediatric patients" with ❤️

00:33:48 Seema Patel: B cell biology in non infectious settings

00:33:49 Hunter Jonus: How gamma delta T cells function within the solid tumor microenvironment

00:39:04 Jan: missing early: connector

most important first: sponsor

missing now: peer

00:39:16 Stacy Heilman: To me, early on a good mentor holds the keys to the kingdom!

00:39:17 Hina Raheel: mentee, peer

00:39:22 Hunter Jonus: Missing early: peer

00:39:33 Aimee L. Bozeman, Ph.D.: Early on: mentor

00:39:40 Sukjoo Cho: missing early: connector, mentee

00:39:43 Elisabetta Foppiani: Missing early: mentor

00:50:43 Hunter Jonus: Can you repeat question - sorry, my brain is slow this morning?

00:52:03 Katie Conover: Maybe it is harder for us to pose things in this framework than we realize... haha

00:52:08 Jessica Reilly MD FAAP DABOM: I'm interested in your work on inflammation, because I am wondering whether inflammatory mediators impact the interpretation of nutritional lab assay results

00:52:09 Jan: Perhaps I would share that I was interested in that person's work because I am trying to determine how practice patterns change over time for pain management for youth with sickle cell disease, and wondered what they thought given their expertise in XYZ?

00:52:41 Jessica Reilly MD FAAP DABOM: Reacted to "Maybe it is harder for us to pose things in this framework than we realize... haha" with ❤️

00:52:42 Sukjoo Cho: I'm interested in understanding the methods to change the behavior of macrophage in the primary tumor and lungs

00:53:00 Seema Patel: The data rejected our hypothesis but I know the biology is trying to tell me something. Given your expertise in...., I was wondering what your thoughts are on...?

01:03:55 Marco Aguilar: Thank you all for attending K-Club! We encourage you to stay until the end of the session, but in the meantime, we kindly ask the you respond to our survey (this is different from Dr. Yeligar's survey!): https://survey.qualtrics.emory.edu/jfe/form/SV_8rhXmZuuYiiCwaa Feel free to add suggestions for future K-Club events - we're always excited to read about what interests you. Lastly, we hope to see many of you in-person at NextGen next week!

01:04:54 Greg Jordan: Is the workshop on the 16th in person only?

01:06:21 Sukjoo Cho: Thanks for the nice talk! Could you please advise on how to build an independent scientific brand/identity from that of the mentor?

01:07:23 Marco Aguilar: In case anyone missed it, here's the link to register for the NextGen Workshop next Monday (in-person only): https://survey.qualtrics.emory.edu/jfe/form/SV_8jozMrJQqclfvOS

01:08:04 Sukjoo Cho: Thank you!

01:08:12 Hina Raheel: May i please ask the location for Monday's session? I have another in person session at 12.

01:08:17 Jan: Thank you so much!

01:08:18 Jessica Reilly MD FAAP DABOM: thank you!! this was very helpful

01:08:21 Marco Aguilar: HSRB II - N100

01:08:24 Evan Czulada: Thank you!!

01:08:34 Hina Raheel: Thank you!

01:08:38 Jessica Reilly MD FAAP DABOM: for those of us not available will it be recorded?

01:08:43 Stacy Heilman: what should people do if they don't have building access to HSRB?

01:08:51 Seema Patel: Thank you! This was very thought provoking.

01:08:56 Sam Yeligar: samantha.yeligar@emory.edu

01:09:17 Seema Patel: Thank you Julie.

01:09:18 Stacy Heilman: which door?

01:09:57 Jessica Reilly MD FAAP DABOM: assuming not recorded bc it's a workshop?

01:10:00 Hunter Jonus:Anyone without HSRB access can also reach out to me at hunter.jonus@emory.edu

01:10:16 Jessica Reilly MD FAAP DABOM: thanks :)

01:10:37 Marco Aguilar: Thank everyone!
